

Looping in VB

The for

For...Next Loop

format is:

For counter=startNumber to endNumber (Step increment)

One or more VB statements

Next

Do Loop

The format are

Do While condition

Block of one or more VB statements

Loop

Do Loop

Do Until condition

Block of one or more VB statements

Loop

Factorial of number

In [mathematics](#), the factorial of a non-negative [integer](#) n , denoted by $n!$, is the [product](#) of all positive integers less than or equal to n :

For example,

$$5! \ 5*4*3*2*1$$
